Re: Jr PHP Developer Position

Dear Hiring Manager,

I am writing to apply for the Jr PHP Developer Position. I found your listing on Indeed.ca and was intrigued by your platform description as well as the job description.

My skillset includes research, time estimation and management, and front-end as well as back-end development. At the core of this skillset is my ability to think critically about a problem, conceive and defend an approach, and develop a solution within the given guidelines and timeframe. I also have excellent communication skills, and consider myself to be well-organized, with great attention to detail. These qualities lead to good documentation skills, and they are proven by the high GPA I have attained in school.

Thank you for considering me for this position. I am looking to work for a company that is dynamic, challenging, and that has a product which I can get behind. I believe that your company strongly aligns with those criteria. If you would like to contact me for an interview, I can be reached at 647-389-3173 or barringtonvenables@gmail.com.

Respectfully yours,

A handwritten signature in black ink, appearing to read 'B. Venables'.
