

BARRINGTON VENABLES

(Cell) 647-389-3173 | barringtonvenables@gmail.com | Toronto M6G 2B6

Objective

To become a member of the Business Drives team as a Junior PHP Developer and to experience professional growth through a challenging, dynamic work environment. Also, to gain experience in industry in both front-end and back-end development, and to exercise critical thinking, collaboration, communication, technical, and teamwork skills while developing and supporting a compelling product.

Highlights of Qualifications

- Collaborative skills learned through music background as well as through several group projects in school
- Problem solving experience gained through school assignments and tests
- The ability to design, implement, and test a solution based on given requirements
- Knowledge of OOP concepts and practices
- Familiar with agile methodologies, version control and collaborative tools such as Git

Education

Computer Programmer Analyst Program GPA 3.9 (Dean's List)

September 2018 – April 2021 (expected)

George Brown College – Toronto, ON

- Created a solution in PHP using a rudimentary custom framework to create, retrieve, and update client information, create items associated with each client, and to manage user accounts with login username and password. All data stored in SQL database, and validated on the server side.
- Created robust OOP solution in C# using windows forms GUI to take user input. The system created, retrieved, and updated information and implemented dependencies in the data to preserve integrity.
- Participated in Systems Analysis group project which covered the planning, analysis, and design phases of the SDLC, including diagrams and use-cases.

Bachelor of Music Performance (graduated with honours)

September 2008 – April 2012

University of Toronto – Toronto, ON

Experience

Media Administrator

May 2019 – August 2019

OMD Media – Toronto, ON

Reviewed discrepancy reports and resolved erroneous flags. Communicated with media partners to negotiate credit for ad spots that did not follow contract guidelines, or to obtain updated documents to show what acceptable changes took place. Noted changes in hard copy file and updated electronic system to reflect changes before billing. Liaised with Accounting department, and Account departments to identify other billing discrepancies.

Acquisitions Assistant

November 2012 – May 2017

TBO CAPITAL – King City, ON

Performed data entry tasks, maintained file system and updated information in order to facilitate accuracy and fast retrieval. Performed research tasks to support decision-making by superiors. Created weekly reports in Excel in order to present business information in quickly digestible format.

Volunteer Experience

Side Stage Assistant & Interactive Zone Exhibition Attendant

April 2019

DIGIFEST – Corus Quay, Toronto, ON

Provide support for event logistics, assist AV crew, run mic to audience members during Q & A sessions. Supervise Student Showcase area, assist exhibitors and Digifest attendees.
